

Adding the Top Center Bridge Partition and Connecting all the Units as One

Take the Top Center Unit Bridge Partition Assembly, four 30mm bolts and four of the Barrel Nut Connectors. Line the holes up on the Left End Top Tower Assembly. Place the four 30mm Bolts through both Top Tower Assembly (Right End and Left End) and secure them in place with the Barrel Nut Connectors.

Adding the 4-Drawer Changer as the Kathryn Changing System

To complete the assembly of the Kathryn Changing System you will position the Kathryn 4-Drawer Changer (sold separately) in the middle of the Towers. You will use four of the brace plates and 16-5/8" flat head screws included with Kathryn 4-Drawer Changer to secure the Changing System together. Place the brackets where they will be centered with half of the plate on the side unit and half of the plate on the center unit. Secure two brace plates at the top where the two tops will meet two plates at the bottom (about 2 inches from the floor).

Cleaning Recommendations:

- Wipe unit with a soft clean cloth regularly
- Wipe spills off unit immediately!
- Avoid the use of chemical and abrasive cleaner that might damage the furniture

WARNING!

- ✓ **FALLING HAZARD** To prevent serious injuries or even death from falls, NEVER LEAVE CHILD UNATTENDED AND ALWAYS KEEP WITHIN ARMS REACH. Follow completely the Tipping Restraint Furniture Safety Bracket Kits that are

located on the tipping restraint packing.

- ✓ The Changing Table is intended for the use of children weighing up to 50 lbs.
- ✓ **DO NOT** use the Changing Table if it is damaged or broken
- ✓ **DO NOT** use the Adjustable Center Bridge Shelf in the Kathryn Changing System while the 4-Drawer Changer is being used as a Baby Changer!
