

Legendary Curved & Flat Crib Toddler Bed Conversion Instruction Sheet

Read All Instructions Before Assembling Crib. Keep Instructions For Future Use.

ITEMS INCLUDED WITH YOUTH RAIL CONVERSION KIT

- (1) Youth Rail
- (4) Tension Pins
- (2) Youth Post Caps

TODDLER BED CONVERSION

Youth rail for this conversion is sold separately.

Make sure the Mattress Support (Spring) is in the lowest position for this conversion.

Step 1: Remove the center of the Front Frame assembly by removing the two 90mm Bolts on the outside of the Front Frame corner posts using your Allen Wrench. Once all the bolts are loosened, lift straight up on the center of the Front Frame to remove.

Step 2: Completely remove one of the front corner posts for this step. Remove the two 70mm bolts that attach the End Frame to the Front Frame Post. You will then need to tilt the crib back. Using the Allen Wrench remove the one 90mm bolt from the bottom of the front corner post. Once all this is done, lift straight up on the post to remove.

Step 3: In each end of the Youth Rail, you will notice a small pre-drilled hole. These holes are for the placement of the two Tension Pins. Make sure when you insert the Tension Pins in the pre-drilled holes that they are only inserted in about half way. (You may have to tap Tension Pins with a hammer to insert.)

Step 4: Place one end of the Youth Rail with the Tension Pin in place, against the corner post that is still attached to the Front and End Frame. (You will note that pre-drilled holes for the Tension Pins are located on the Front posts as well.) Make sure the Youth Rail fits flush with the corner post.

Step 5: Reattach the front post that was removed in Step 2. When positioning the post back into place, make sure that you insert the Tension Pin that is in the end of the Youth Rail into the pre-drilled hole located on the Front Post. Once all items are in place, replace the 70mm bolts thru the End Frame into the front corner post. Then tilt the crib back and screw one 90mm bolt through the pre-drilled hole located in the bottom front rail into the bottom of the front corner post. Insert two 90mm bolts thru the corner posts to secure the Youth Rail and tighten.

Step 6: Attach the Youth Post Caps with two Tension Pins and two 90mm bolts. Insert a Tension Pin in each pre-drilled hole in the Post Cap. Then insert the Tension Pin into the pre-drilled holes on the top of the corner post and secure using the 90mm bolts.

Once a crib has been converted to a youth bed or adult bed it is not intended to be converted back to a crib. In that instance, it will not be covered by the manufacturer's warranty.

FOR FUTURE USE AND REFERENCE

RETAIN THIS INSTRUCTION SHEET AND THE CRIB TOOLS IN THE ORIGINAL SACK AND SECURE IT TO THE SPRING UNDER THE MATTRESS WITH PLASTIC TIES.

CARE INSTRUCTIONS: The natural warmth of wood is a lasting value. Character marks, checking and grain variations are part of the beauty of wood and, therefore, should not be a concern. To preserve your furniture, we suggest the following:

- Do not expose furniture to direct sunlight or extreme changes in temperature or moisture.
- Do not place the furniture near heating or air conditioning vents.
- Lift objects rather than dragging them across the top surface when moving them.
- Wipe up spills promptly.
- When cleaning your furniture, use non-toxic, non-abrasive furniture cleaner with soft, lint-free cloth. Dry thoroughly and then apply furniture polish. Always wipe the furniture in the direction of the wood grain.

We recommend the furniture to be polished every six months. Over polishing can distort the natural finish of the product.

WARNING!

INFANTS HAVE DIED IN TODDLER BEDS FROM ENTRAPMENT

Openings in and between bed parts can entrap head and neck of small Child.

NEVER use bed with children younger than 15 months.

ALWAYS use supplied youth rails to avoid gaps between mattress and bed.

ONLY use full-size crib mattress of the recommended size.

ALWAYS follow assembly instructions.

WARNING!

STRANGULATION HAZARD

NEVER place bed near windows where cords from blinds or drapes may strangle a child.

NEVER suspend strings over bed.

NEVER place items with a string or pacifier cords around a child's neck. These items may catch on bed parts.
