

January 21, 2009

Dear Baby's Dream Retailers and Customers,

While we are continually under observation of new federal safety requirements, we want to assure you that **our products are in compliance of the regulations** as established in the Consumer Product Safety Improvement Act of 2008 (**CPSIA**), the Airborne Toxic Control Measure (**ATCM**) and the California phthalate law (**CA AB 1108**).

Enclosed please find reports and certificates as supporting documents that Baby's Dream products are non-toxic and baby safe.

Lead Free (Appendix 1)

Lab report from Intertek, a third-party testing lab certified by JPMA, showed results are in compliance with the standard of U.S. CFR Title 16.

Formaldehyde Free

Baby's Dream products are free from formaldehyde emissions. Our products are solid wood and do not contain engineered wood such as particleboard and MDF, which are typically carriers of formaldehyde emissions.

Phthalates Free (Appendix 3)

Technical Certificate (3.1) from our chemical supplier declares no phthalates are used in the paint formulations. Results from Intertek Lab Report (3.2) indicate no phthalates detected in the products.

To help you declare that Baby's Dream products are chemical free, a new icon (similar to the right) will be in place on all Baby's Dream packaging and marketing collaterals in the near future.

Sincerely,

Ross Felfeli
President & CEO
Baby's Dream Furniture

<Appendix 1>

Intertek Lab Report

Test:

Lead Content

Results:

In compliance

Chemical Analysis: Total Lead (Surface Coating/Wet Paint)

Procedure: Analysis of the surface coating/wet paint was performed by *Inductively Coupled Argon Plasma or Atomic Absorption Spectroscopy* to determine compliance with **16 CFR 1303**.

Requirement: The lead content (calculated as lead metal) shall not exceed 600 ppm of the dried paint film as required by **16 CFR 1303**.

Sample ID: **Color Samples**

Sample Utilized: Coating Removed from Product

Test Results:

		Total Lead Content ppm
1.	Cherry	<10.0
2.	Espresso on Pine	<10.0
3.	Chestnut	<10.0
4.	Cinnamon	<10.0
5.	Vanilla on Birch	<10.0
6.	Glacier	<10.0
7.	Vanilla/Snowdrift on Pine	<10.0
8.	Honey	<10.0
9.	Paprika on Pine	<10.0
10.	Paprika on Birch	<10.0
11.	Amber	<10.0
12.	Espresso on birch	<10.0
13.	Midnight/hrh Black	<10.0

Conclusion: When tested as specified, the submitted sample **does comply with 16 CFR 1303 requirements.**

January 19, 2009

Technical Certificate

Through this document we certify that the following products sold to Industrial Centec, a division of Baby's Dream Furniture in Chile do not contain phthalates (DEHP, DBP, BBP, DINP , DIDP and DnOP) in its formulation.

<u>Code</u>	<u>Description</u>
SCH-0775	Sealer and Lacquer NC Sheen 15
SCH-1453	Sealer and Lacquer NC Sheen 10
SCH-1557	Lacquer NC Sheen 20
SCH-1565	Sealer NC

<Appendix 3.2>

Intertek Lab Report

Test:

Phthalates Content

CPSIA Parameters:

Phthalates DEHP, DBP, BBP, DINP, DIDP, and DnOP shall not be used in concentration of more than 0.1% in childcare articles.

Results:

In compliance

Chemical Analysis: Consumer Product Improvement Act of 2008 – Sec. 108 Phthalate Content:

PHthalate BAN: - Beginning January 10th, 2009 it shall be unlawful for any person to manufacture for sale, offer for sale, distribute in commerce, or import into the United States any children's toy or child care article that contains concentrations of more than 0.1 percent of di-(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), or benzyl butyl phthalate (BBP).

INTERIM PROHIBITION: - Beginning January 10th, 2009 and until a final rule is promulgated, it shall be unlawful for any person to manufacture for sale, offer for sale, distribute in commerce, or import into the United States any children's toy that can be placed in a child's mouth or child care article that contains concentrations of more than 0.1 percent of diisononyl phthalate (DINP), diisodecyl phthalate (DIDP), or di-n-octyl phthalate (DnOP).

PROCEDURE: Sample extraction by Soxhlet (ASTM D3421); Ultrasonic; or Microwave method
 Analysis: Gas Chromatographic-Mass Spectrometric (GC-MS)

REQUIREMENTS:

- DEHP, DBP, or BBP – not to exceed 0.1%
- Interim Prohibition - DINP, DIDP, or DnOP – not to exceed 0.1%

	RESULT (% (w/w))	Limit(% (w/w))
	1	
Dibutyl Phthalate (DBP)	ND	0.1
Diethyl Hexyl Phthalate (DEHP)	0.079	0.1
Butyl Benzyl Phthalate (BBP)	ND	0.1
Di-(n-octyl) Phthalate (DnOP)	ND	0.1
Di-(iso-decyl) Phthalate (DIDP)	ND	0.1
Di-(iso-nonyl) Phthalate (DINP)	ND	0.1

Component	Description
1	Espresso Coating

**ND=Not Detected (<0.005%)

Conclusion: The submitted toy and / or Childcare article(s) **did not exceed** the limit for the Phthalates specified in the Section 108 (a) and (b) of the Consumer Product Safety Improvement Act of 2008.
