

5 Steps to Create Your Baby's Dream Nursery

BABY'S DREAM™
FURNITURE INC.

Generation Next convertible crib collection. Shown in Cinnamon.

- 1 Assess Your Space:** Write down your room dimensions before going furniture shopping.
- 2 Choose Furniture that Grows with Your Baby:** Purchase a crib that converts to a toddler bed and then a full-size bed for long lasting value. Remember babies aren't babies forever.
- 3 Use Color:** Create a stimulating yet relaxing environment to help your newborn's early development.
- 4 Plan for Plenty of Storage:** Choose a dresser or changer that provides room to store your baby's clothing and toys beyond the baby years. Years down the road a dresser can even be used as a media cabinet.
- 5 Add a Touch of Style:** Spruce up your nursery with quality crib bedding, decorative accessories and sponge painting kits.
