

# BABY'S DREAM FURNITURE, INC.

Our products are created based on four fundamental ideas:

## SAFETY

Baby's Dream cribs are designed and manufactured to meet or exceed federal safety standards. Our patented drop-gate crib has a beveled construction to prevent finger pinching. And since both latches must be engaged/disengaged simultaneously to open or close, your baby will never have access to the mechanism.

## QUALITY

Baby's Dream cribs feature smooth handrubbed surfaces and baby safe non-toxic lacquer finishes. All the frames are joined to the posts using steel bolts and inserts. This reduces the possibility of stripping during assembly or conversion, which means a longer life for your crib.

Generation Next Dropside Crib

## VALUE

Baby's Dream cribs are created with cost savings in mind. You can use the same mattress, bedding, and accessories whether it's a crib or a youth bed. These familiar surroundings help your child make the transition to a new environment with ease.

Generation Next Toddler Bed

## DESIGN

Baby's Dream furniture is carefully designed with keen attention to detail. Handcrafted in solid wood, the tight grain makes it more elegant and more durable.
